## 360 mL Round Heatables

### (ii) Time and temperature of treatment, and storage in contact with the food

This product is intended for repeated use.

It is suitable for both short-term and long-term storage at room temperature or below, and for limited heating of food in a microwave.

It passed the standardized overall migration testing condition of 2 hours at 100°C, as specified in Regulation (EU) No 10/2011 and its amendments.

### (iii) The ratio of food contact surface area to volume used to establish the compliance of the article

Compliance for this product was established using the applicable surface-to-volume (S/V) contact ratio for food contact, in accordance with the conditions set out in Regulation (EU) No 10/2011.

#### Note:

Consumers should follow the recommended usage and storage guidelines applicable to the food or beverage stored in this product, including any instructions provided on food packaging labels. Additional information regarding the safe use and care of this product is available on the product packaging, accompanying documentation, base engraving, use and care instructions, or on the Sistema website: [www.sistemaplastics.com](http://www.sistemaplastics.com).
